

PRACTICE TIPS:

Test set overview

→sorted by material

Please refer
to the respective
test instructions

Material	Test set	Analyses
Smear	T921	V712 Vaginal microbiome
Breath test	T900	B120 Fructose breath test
	T901	B110 Lactose breath test
	T902	B130 Sorbitol breath test
	T917	B135 Fructose-sorbitol-combination breath test
	T929	B105 SIBO
Hair/nails	T913	E190 Hair mineral analyses
Capillary	T919	C046D IgG4 Food screen → Telemed request form
	T922	N1000 Vitamin D bloodspot N1010 Fatty acids bloodspot N390 Diaminooxidase (DAO)
	T932	H611 Metabolism and health H612 Healthy ageing H613 Stress monitor H614 Sport und training
	T933	T933 Prevent 360
Saliva	TBio1	O200 Cortisol diurnal profile (3 samples)
	T905	O934 Hormone profile male O935 Hormone profile female O310 Cortisol O320 DHEA O330 Progesterone O340 Estradiol O350 Testosterone O355 Estriol
	T923	O360 Melatonin
	T924	O380 Nocturnal profile melatonin

biovis Diagnostik MVZ GmbH
 Brüsseler Str. 18 | 65552 Limburg-Eschhofen
 info@biovis.de | biovis.de

Material	Test set	Analyses	
Saliva	T931	I610	Amalgam/root fillings
		I620	Dental crowns
		I630	Protheses and implants
		I640	Bisphenol A
Stool*	T909	A410	Histamine in stool
	T910	A210	Calprotectin, haemoglobin
		A310	Haemoglobin
		A320	Haemoglobin/haptoglobin
	T920	H205	ColoAlert
	T926/Fe	Native stool sample (Fe) for additional stool parameters	
	OS	Microbiome analyses (OmicSnap Tube)	
Urine	OM	Metabolome analysis (OmicSnapMeta Tube)	
	T903	L120	Kryptopyrrole
	T912	C710	Casomorphine and gliadorphine
	T925	I113	Heavy metals profile before and after chelat
		I114	Heavy metals profile after chelat
		I130	Mercury after chelat
		I245	Gadolinium after chelat
	T927	F325	Estrogen metabolites
	T928	A125	D-Arabinol in urine
		A675	TMA and TMAO formation
		A685	Tryptophan-metabolism plus
		A681	Bacterial uremic metabolites
		C410	Methylhistamine in urine
		C415	Histamine in urine
		E408	Complete profile organic acids
		E425	Organic acids of the citric acid cycle
		E435	Vitamin D metabolism marker
		E520	Methylmalonic acid
		F500	Neurotransmitter basic
		F510	Neurotransmitter plus
		F520	Inhibitory neurotransmitters
		F550	Serotonin in urine
		F610	NT-Tryptophan-metabolism
		F620	NT-Tryptophan-metabolism plus
		F630	Methyl group donors

Please note: List of analyses is not exhaustive. For example, profiles that include test sets are not listed (e.g. EBS profiles)!

*For more information, see our practical tip 'Overview of all stool tubes' with a detailed list of which stool tube is used when.
